Worker's Memorial Day – April 28, 2024

This year on Sunday, April 28th, we will once again honor those men and women who were killed or injured on their work sites. Worker's Memorial Day is an important day to reflect on the safety of our jobs both now and in the future.

Many on-site injuries are evidenced as willful neglect by various employers who in turn put profits before lives and injuries.

While significant progress has occurred since the passage of the Occupational Safety and Health Act, more progress remains to be made. We all need to continue our efforts to eliminate hazards in the workplace.

Worker safety is mutually everyone's responsibility, both workers and employers alike. We all need to work together to save lives and avoid injuries.

Fraternally,

Deborah A. Spencer
President, Local 195, IFPTE
